ABOUT BOARD

The basic objective of establishing the All India Council of Skills and Vocational Studies is to provide a better life to the children and women living in economically deprived and remote areas and to make them self-reliant by equipping them with education and employment-oriented education. Our priority will be to educate and make people skilled by propagating technical education along with Indian culture and values. Because technical education plays an important role in the human resource development of the country by creating skilled manpower, increasing industrial production and improving the quality of life of the people. It will be our moral responsibility to honor the gentlemen who have contributed in the field of education and technical education in a spirit of encouragement and enthusiasm. Our aim will be to bring light of education in the lives of people living in remote hilly areas and to connect them with the mainstream of development of the country by providing them the means of livelihood by providing technical education. For this, certificate courses are available by organizing short-term camps.

This is a small step to determine our participation in Skilled India, but we will continue every possible effort to make it a milestone by making meaningful efforts with honesty and transparent thinking.

Under the scheme, courses of NTT, PTT, NPTT, Anganwadi, early childhood education etc. will be run. Under skill-based courses, computer operations, D.T.P., tailoring, handicrafts, small scale industries etc. will be conducted. Besides, special attention will be given to professional courses – health work, Paramedical, Engineering, Yoga, social work, community health work, arts and crafts etc.

The basic purpose of establishing All India Council of Skills and Vocational Studies is to provide them better life and make self-reliant by decorating children living in economically backward and empowering feminine education along with, employment oriented education. This is a small step to decide on your participation in Skilled India, but by making a meaningful effort with sincere and transparent thinking, we will continue to make every effort to make it a milestone.

I strongly believe that at AICSVS, our true strength lies in the quality of our people, many of whom have been with us for over 5 years and consider this organization to be a part of their family. Today I am proud to say that we have created a work force whose loyalty and hard work are prevailing across the organization. Going forward too, our employees' passion to excel will continue to be the backbone of the AICSVS. With the launching of "Digital India" initiative by the Government of India, the role of AICSVS is likely to grow substantially in the near future as the demand for IT services and is expected to rise rapidly.

All India Council of Skills and Vocational Studies (AICSVS) is to rededicate itself on strengthening its services with complete fairness, transparency and objectivity with a view to ensure timely execution of projects.

DR. NARAYAN YADAV
